(Ian Currie, Roopa Nair, Chendrimada Madhu and Chu Lim from Nov 2018)

Aims for the Year

To increase the number of units applying for accreditation by encouraging and supporting BSUG members working towards accreditation.
Continue to engage with the members and support them in preparing for accreditation by providing informal mentorship and repository of useful documents on the BSUG website.
To assess and accredit units applying for accreditation in a timely manner.
Conduct workshop at the next ASM if the meetings committee allocates a slot.

Achievements

In total 23 urogynaecology units from across UK approached the governance committee to apply for accreditation. Eighteen units have been accredited since Nov 2015 and two units are being assessed. Three have been unsuccessful in their application. Reminders have been sent to units due for reaccreditation and files have been received.

Some members of the committee will finish the maximum 6 years term limit. We have appointed some new members starting from Nov 2018 to fill the vacancies.

The new UKCS minimum standards for urodynamics document was circulated for comment to all committee members as part of the committees role and was approved by the committee.

We are piloting accreditation files in electronic format and will consider this option if there are no issues after further discussion.

Azar Khunda is appointed as new vice chair and my term as chair will finish this year in Nov 2018. New chair will be elected soon.
