## Aims for the Year

Complete and publish further information leaflets based on conditions rather than procedures

Produce a BSUG mesh advice leaflet

Update the NHS leaflets mesh leaflets in conjunction with BAUS once the mesh pause is fully resolved. Process halted when mesh pause announced.

Work on updating existing leaflets after lay reading input.

## Achievements

### Patient information leaflets

Continence and prolapse leaflets for all procedures now on line and website page reformatted to make them easier to find.

### Shared decision making

PDA written by Swati to be published jointly with the RCOG still awaiting RCOG finalisation

Brief Decision Aid for management of prolapse not used by MAGIC as yet so rebranded as a BSUG decision aid.

## Other issues

Discuss new format for the committee as no new members recruited due to absence of applicants

Consider professional proof reading, formatting etc to ensure quality of the leaflets
