BSUG has developed a Database of clinical and surgical information which we hope will make procedures as safe and effective as possible. Hospital Trusts and individual Consultants can use this information to look at their practice and make any necessary changes to improve patient care.

The patient information held in the BSUG database comprises: Name, Hospital Number and Date of Birth (“Patient Identifiable Data”) together with clinical and surgical information. The information on the BSUG database is recorded in line with the General Data Protection Regulation (GDPR) (2018).

If you agree to allow us to enter your Patient Identifiable Data into the BSUG database this will signify your consent to the following:

1. The processing of my Patient Identifiable Data and clinical information by BSUG for research and auditing purposes as outlined above.
2. The disclosure by BSUG of my Patient Identifiable Data and clinical information to its information technology service providers (ICE ICT), where such suppliers have agreed to adopt appropriate technical and organisation measures to protect the security of my Patient Identifiable Data and only to process it in accordance with BSUG’s instructions.
